KING PORTLAND CENTRE

ABOUT THIS PROJECT

- + Redevelopment, with an existing, Victorian style commercial building incorporated into the additions.
- + Development consists of a 13-storey office tower with ground level retail, and a 15-storey residential tower with approximately 116 suites.
- + Commercial portion of the podium consists primarily of commercial retail space as well as a three-storey below grade parking garage.
- + Development focussed on sustainability as a key factor in the development with the residential portion achieving LEED Gold certification. The office portion achieved LEED Platinum.
